## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-50 are allowed.

The following is an examiner's statement of reasons for allowance: independent claims 1, 9, 23, 31, 45 and 48 recite limitations that, in response to an associating drag and drop step, provide dynamic menu options to a user for modifying or supplementing a property of a media file, the dynamic options being provided as a function of and based upon selected property category data, or similar. The cited prior art, Chasen, Tonelli, and Kesler, fail to teach such a limitation. Chasen teaches associating property category data with a media file through drag and drop means, but fails to teach providing further dynamic menu options in response to the association. Tonelli teaches providing menu options to a user in response to a drag and drop operation, but as noted by Applicant, fails to provide dynamic menu options to a user. Kesler teaches building a dynamic user interface and menu interface, but fails to teach providing dynamic menu options to a user. A further search failed to produce any relevant results. Subsequently, claims 1-50 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
